- React
- Next.js
- Node.js
- Express
- Tailwind
- MongoDB
- Postman
- Figma
- Full Stack
- API

WORK EXPERIENCE

Welder

Tennant company | Golden Valley, MN
Nov 2021 – Present

Perform gas shielded MIG welding, including grinding and spatter removal. Layout, fit, and fabricate metal components for structural forms. Utilize hand and power tools, bolt, clamp, and tack-weld parts for secure assembly. Conduct self-inspection for quality assurance and interpret instructions from work orders and blueprints.

Web Developer

Cooper's Floors | Andover, MN
Jul 2023 – Present

I revamped the Coopers Floors website, blending aesthetics with functionality. Ongoing optimization led to improved user engagement and conversions. I'm proud to set a new standard in the flooring industry's digital landscape.

EDUCATION

Associate in applied science degree – Software Development

Anoka Technical College
Jan 2022 – Dec 2024
